## CITIZEN CHARTER

---

**Watershed Development Department**  
**7<sup>th</sup> & 8<sup>th</sup> Floor, KHB Complex**  
**Cauvery Bhavan, K.G. Road**  
**Bengaluru – 560 009**  
**Tel:91+080-22100670/71/72 ; Fax:91+80-22100665 ;**  
**e-Mail: [watershed@vsnl.net](mailto:watershed@vsnl.net) ; [wdd.cell@gmail.com](mailto:wdd.cell@gmail.com)**

## **Introduction:**

Karnataka is the eighth largest state in India with highest per cent (79%) of drought prone area in the country. In absolute terms it has the second largest dry land next to Rajasthan. This valuable resource which serves as the main source of livelihood for the large chunk of the rural population has been subjected over a long period of time to poor land management practices. This has led to deteriorating soil fertility, soil loss, declining productivity, depletion of water resources, deforestation, denudation, destruction of natural pasture and diminishing biomass production. This has led to widespread misery in rural areas with significantly higher level of poverty in rain-fed areas of the state.

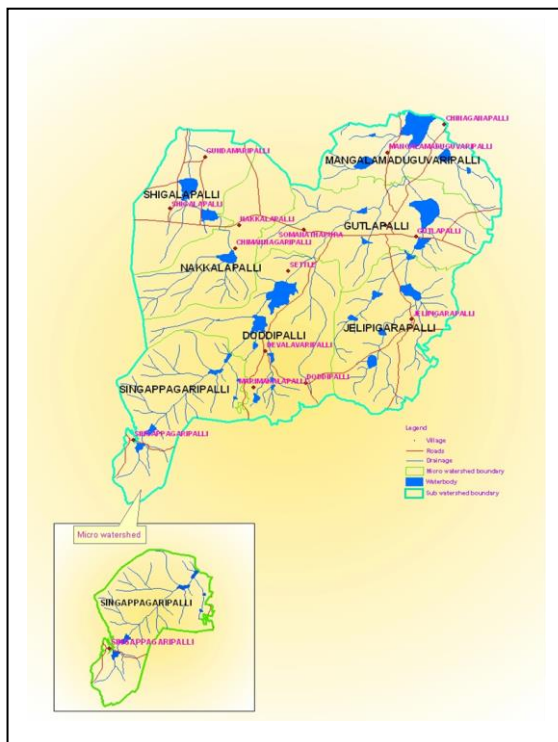

Amid worldwide concern for food security, it is vital for countries to attain self sufficiency of food and fodder requirements. In this context watershed development approach is been widely acknowledged worldwide as a effective solution to address the needs of rainfed agriculture. This is owing to the fact that it looks at increasing productivity of degraded lands and developing, maintaining and using natural resources on a sustainable basis. Though initially watershed was looked as mere conservation of soil and water through various land treatment interventions. In recent years, there has been a paradigm shift from a conventional approach to a multi-sectoral participative approach. This is designed not only to develop agriculture productivity and natural resource management but also for a poverty reduction with enhanced livelihood options for rural communities. Today, the holistic approach also encompasses additional dimensions of 'equity', 'gender' and stakeholder's 'participation' to enhance a wide range of rural livelihood options on a sustainable basis.

## **History of Watershed Development in Karnataka:**

History of watershed development in Karnataka can be traced back to pre-independence period. During 1923 three dry farming research stations were established at Hagari, Raichur and Bijapur. After Independence, Karnataka continued with the traditional techniques of soil conservation and water retention treatments with a host of programmes being implemented by the Agriculture Department. In 1983 a World Bank assisted comprehensive watershed project was taken in Kabbalnala. In order to capitalize on the gains of the Kabbalnala Project in 1984, Government of Karnataka created four Dry Land Development Boards under four revenue Divisional Commissioners with a jurisdiction over 19 districts. Each district had a multidisciplinary team comprising of line departments. The success of these watersheds in Karnataka as well as in other parts of the country encouraged GOI to follow the strategy of watersheds in principle and launched a massive NWDP in 7th five year plan. This project was re named as NWDPPRA during 8th five year plan.

GOK considered various aspects including commitment given in the context of an externally aided project and decided that better co-ordination in planning, implementation and supervision would be achieved by setting up a separate department of watershed with multi-disciplinary teams. With this prime aim, to develop watershed in an integrated and co-ordinated manner, the Government of Karnataka created WDD during 2000. This department is given the responsibility of coordinating the formulation, planning and execution of different activities of agriculture, soil conservation, afforestation, horticulture, livestock, pasture development & income generation activities etc., in an integrated manner on the watershed concept.

## What is Watershed ?

The word watershed refers to a **“contiguous area draining into a single water body or a water course”** or **“it is a topographical area having a common drainage”**. This means that the rainwater falling on an area coming within a ridgeline can be harvested and will flow out of this area through single point.

**Watershed development:** It refers to the conservation, regeneration and the judicious use of all the natural resources viz.

- Land
- Water
- Plants
- Animals and
- Human resources

Human intervention is primarily responsible for degradation of resources, its conservation and

regeneration can only be possible by **involving people in planning, implementation, managing the programmes through participatory approach.**

# STATE LEVEL ORGANISATIONAL CHART

## **SECRETARIAT OF AGRICULTURE DEPARTMENT**

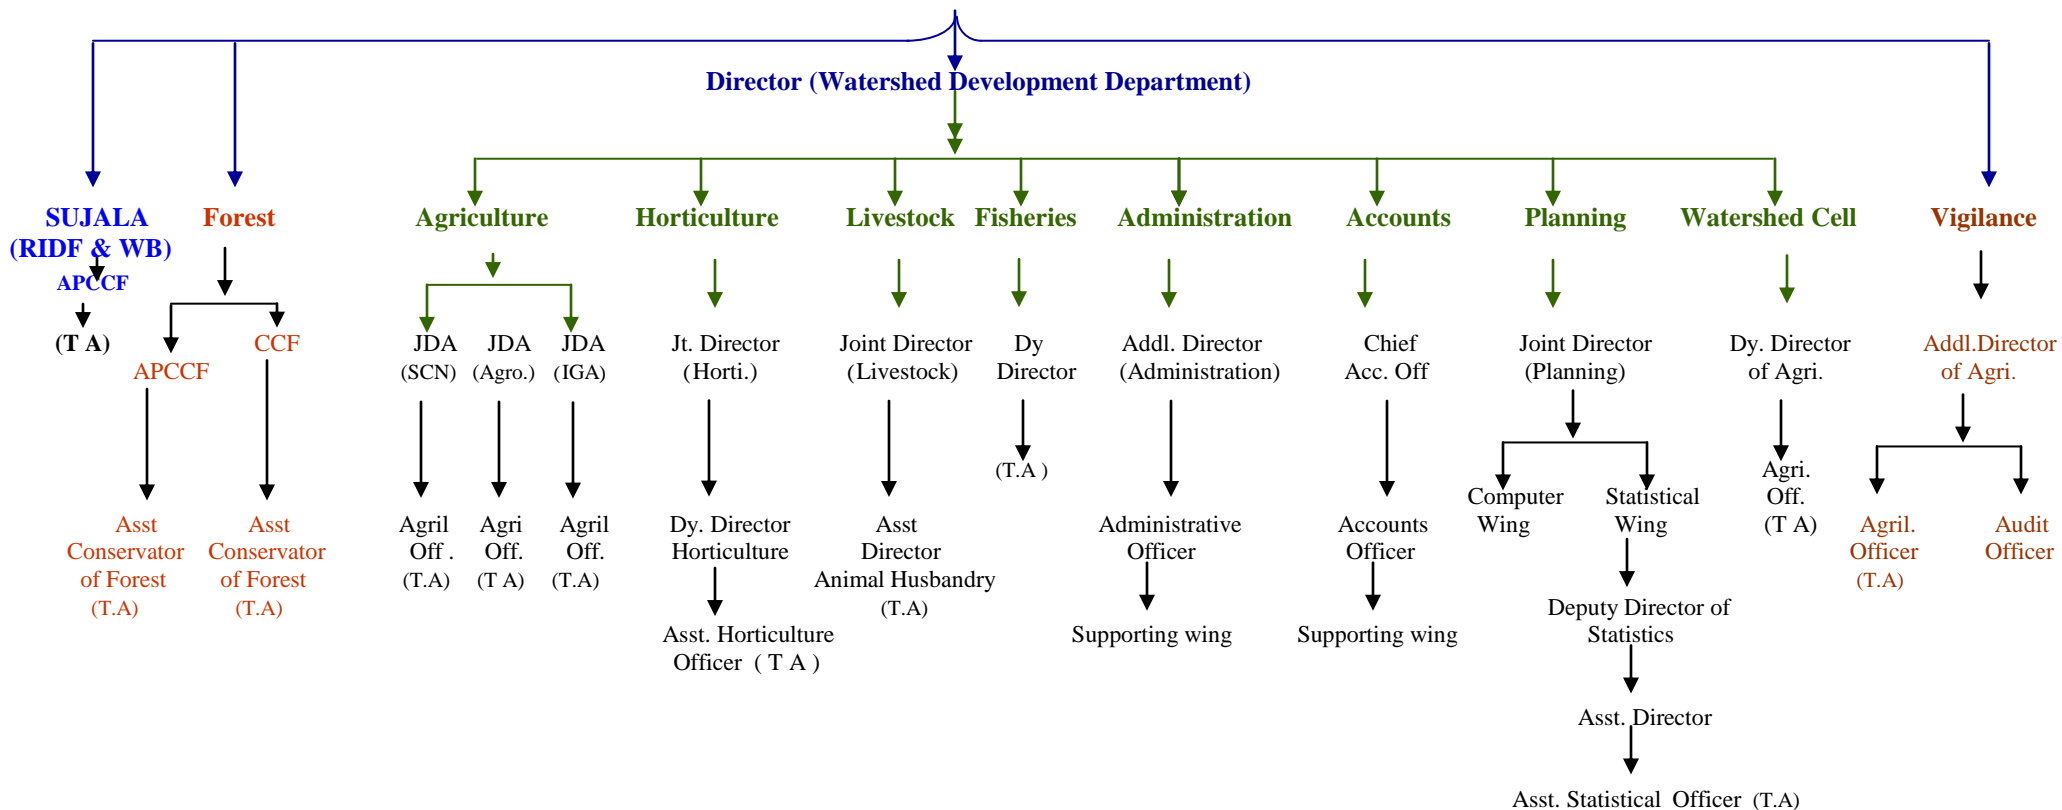

### **WATERSHED DEVELOPMENT DEPARTMENT**

Minister of Agriculture (Government of Karnataka)

Additional Chief Secretary & Developmental Commissioner

Principal Secretary (Agriculture)

Commissioner (Watershed Development Department)

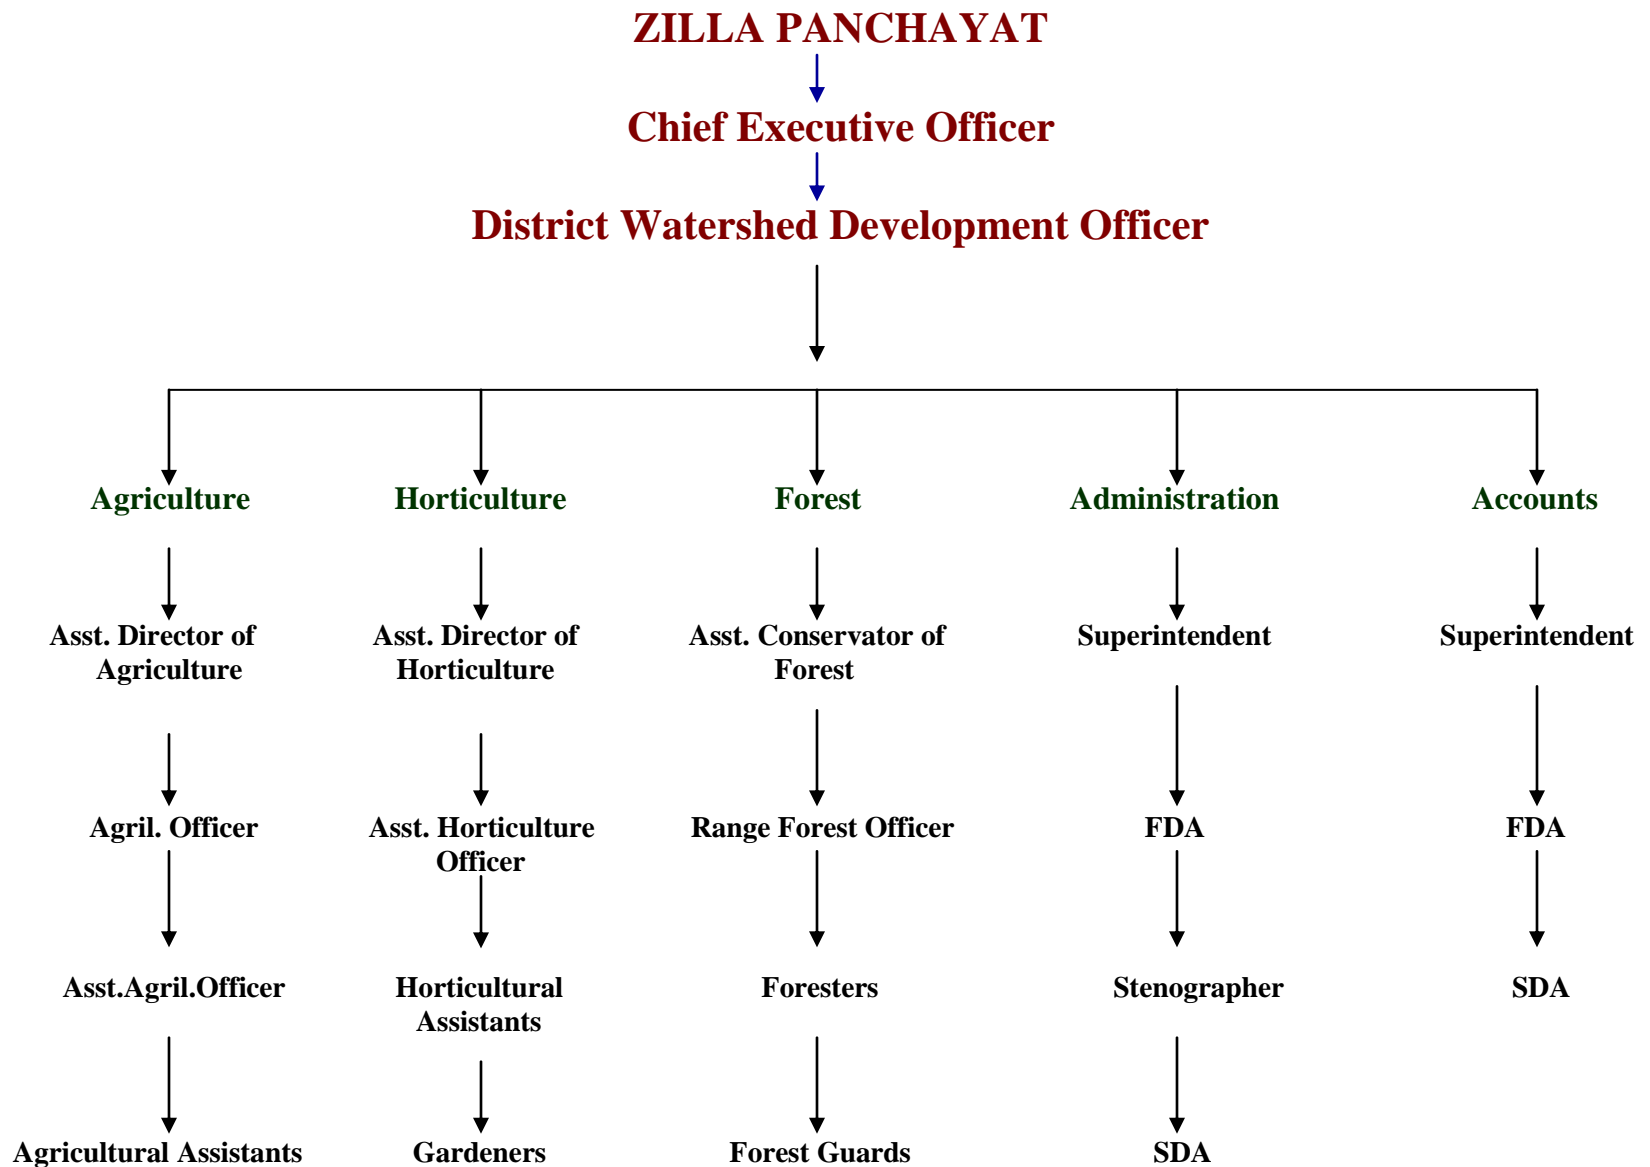

**Note :** In addition to this there will be other Technical Experts Outsourced under IWMP

**Technical Experts -** Livelihood, IT, GIS, Hydrogeology, Programmer, Documentation, Technical Officers

Account assistant and Data entry operator

# District Watershed Development Department

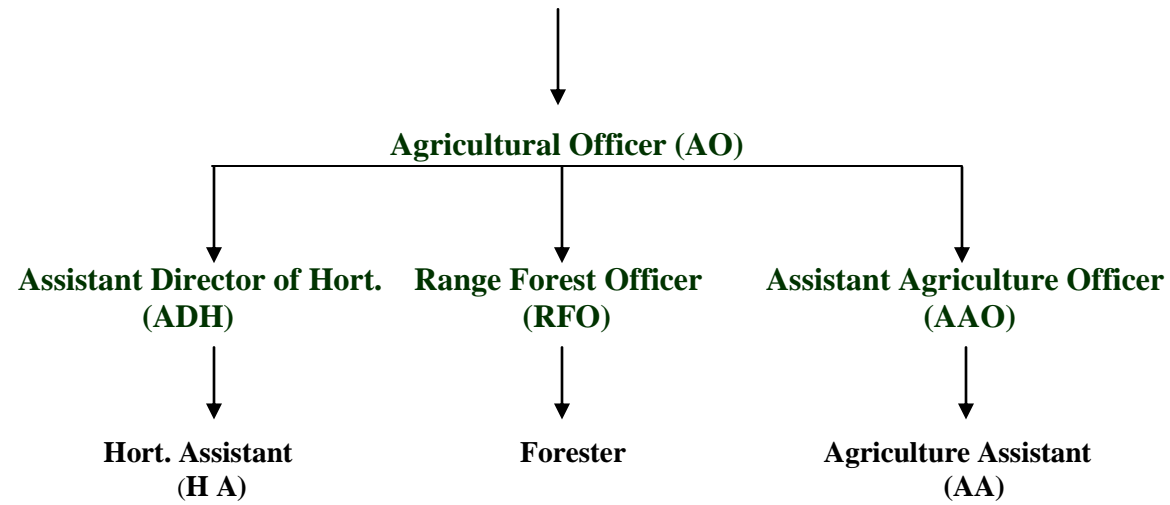

**Note :** *In addition to this there will be other Outsourced staff under IWMP*

*- Training Coordinator, Technical assistant, Accountant, Data Entry Operator*

## Taluk Watershed Development Department

**Assistant Director of Agriculture (ADA) – one for 2 to 3 taluks**

**Note :** Since almost all the AAs post are vacant, 4 to 5 watershed assistant are outsourced through NGOs

# **Our Vision..... and Our Mission**

## **VISION**

**People living in rural Karnataka particularly in rainfed areas are empowered to secure their livelihood and quality of life**

## **MISSION STATEMENT**

**Our mission is to develop, promote and implement through participatory approaches, a decentralized, cost effective, transparent and sustainable watershed treatment package;**

- \* To meet rural livelihood needs**
- \* To enhance employment and income opportunities for the poor**
- \* To improve the productive potential of natural resource base,**
- \* To reduce the poverty & natural resource degradation**

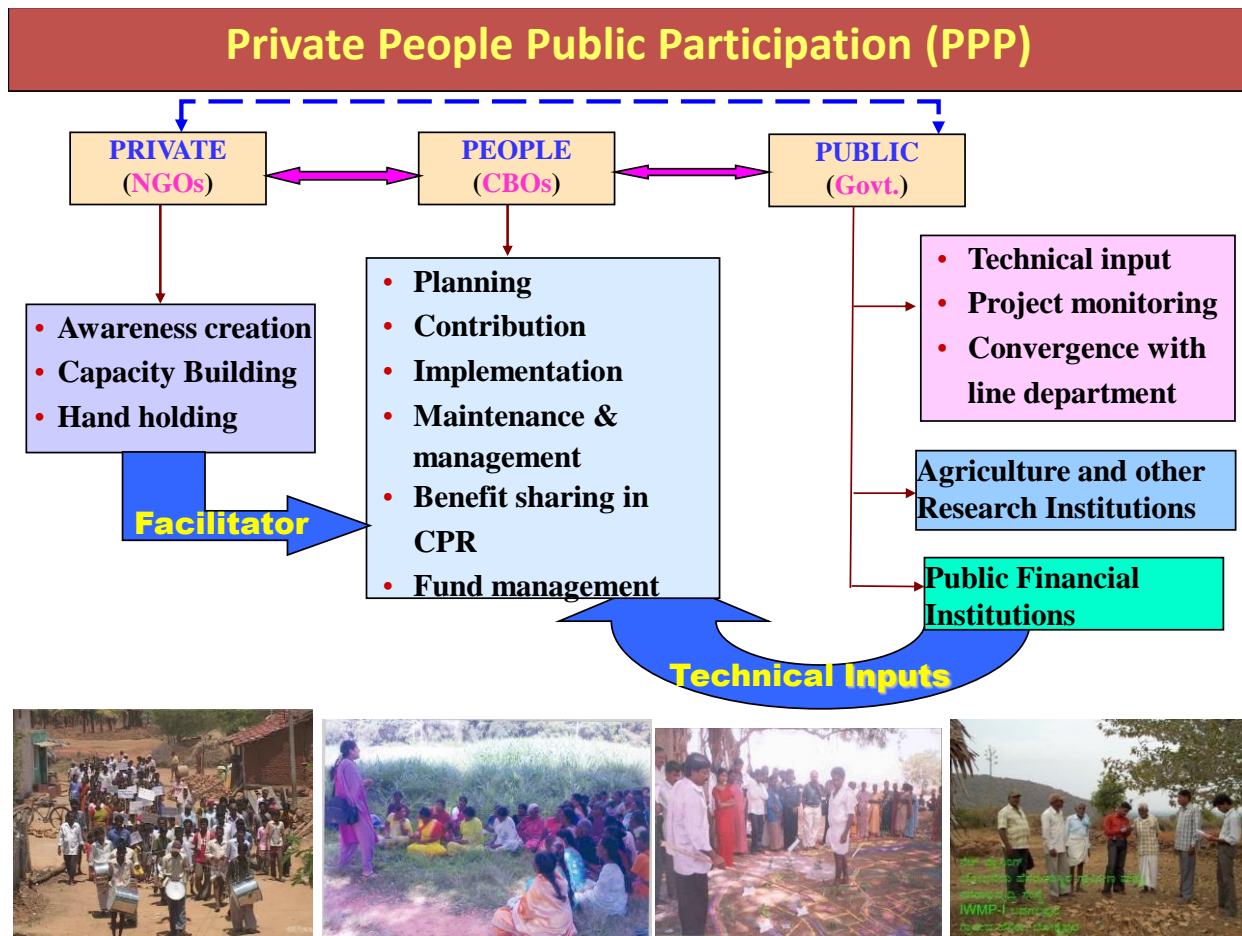

## **Our Quality policy**

**We at the Watershed Development Department shall strive for continual improvement of soil and water conservation in the watershed areas of Karnataka leading to better quality of life of local communities**

## **To achieve this we commit ourselves to**

- \* Conformance to quality standards in execution of treatment interventions**
- \* Continual improvement of our services**
- \* Effective PPP partnership**
- \* Development of human resources**

## BUSINESS TRANACTED BY WDD

### Project Survey and Planning

- Project preparation for integrated watershed development projects following guidelines of MoA, MoRD (DoLR), MoEF, Govt., of India and external agencies.
- Arrangements of financing from Govt. of India (CSS) and other external / internal agencies for implementation of watershed projects.
- Coordination with other line departments for effective convergence (Rural Development and Agriculture) and NGOs working on watershed development projects, evaluation and submission of project proposals to the respective Ministry and Aid agency.
- Prioritization of watersheds to be taken up for treatment.

## MONITORING AND EVALUATION

- Progress monitoring of all watershed development programmes / schemes being implemented by WMD, SLNA, Rural Development and Agriculture Departments.

- Development of MIS for quick retrieval and analysis of captured data.
- Monitoring and Evaluation of externally aided projects through external, internal evaluators and participatory monitoring by the community.

## **COMMUNITY PARTICIPATION, TRAINING AND DOCUMENTATION**

- Achievement of community participation through involvement of PRIs and Community Based Organizations (CBOs) for planning, implementation of integrated watershed development plans and management of assets created.
- Capacity building of communities, community based organizations (CBOs) and PRI institutions through skill development, social and technical trainings, workshops and exposure visits.
- Training and skill up-gradation of staff.
- Ensuring equity by way of effective participation of vulnerable groups including women and landless in the planning, implementation and benefit sharing in the watershed project.
- Promoting Income generation activities to vulnerable sections
- Information Education and Communication (IEC) for awareness generation, transparency and impact documentation.

## **Technology Dissemination**

- Linkage with technical institutions and universities, technical awareness programmes for the rural community and project staff, development of technical modules for technology transfer to the end-user.
- Information dissemination as regards improved technology in the fields of agro based, minor engineering, bio technology and other suitable technology.
- Technology dissemination through grass root level demonstration, trainings and workshops.

## **Programme Implementation**

- Facilitation of implementation of central government, state government and externally aided projects through Multidisciplinary Teams trained in participatory approaches.
- WDD is presently implementing following projects
  - Centrally Sponsored, Integrated Watershed Management Programme (IWMP) in 29 districts with the exception of Bengaluru urban district under overall guidance of SLNA. At the district level District Watershed Development Officer will be implementing the project with the support of multidisciplinary team. At taluk level there will be another multidisciplinary team is responsible for overall execution of the project at village levels in coordination with the Grama Panchyath.

- NABARD funder Sujala-2 project in six selected distressed districts under primeminister's relief package (Shimoga, Chikkamagalur, Kodagu, Hassan, Chitradurga and Belgaum).
- Other Area Development Programmes like IWDP,DDP, RVP WGDP etc. level Watershed Committees are the implementing units.

## **DETAILS OF CLIENTS AND SERVICES PROVIDED TO EACH CLIENT GROUP**

Watershed Development Department renders services at two levels viz. Government level and community level. The details of clients at the two levels and the services rendered to each client group are as under:

<b>Name of the client</b>	<b>Services rendered</b>
<b>Government level -</b>	
1. State Government	<ul style="list-style-type: none"> <li>– Arrangements of financing from Govt. of India and other external / internal agencies for implementation for watershed projects.</li> </ul>
2. State Level Nodal Agency (SLNA)	<ul style="list-style-type: none"> <li>– Prioritization of watersheds to be taken up for Treatment and project planning.</li> <li>– Project planning and implementation of IWMP and other projects.</li> <li>– Getting concurrence for policy level decision</li> <li>– Submission of progress report</li> </ul>
<b>Community level</b>	
1. Gram Panchayat	<ul style="list-style-type: none"> <li>– Provide technical guidance and financial support for preparation and implementation of Watershed Development Plans.</li> </ul>
2. Watershed Committee	<ul style="list-style-type: none"> <li>– Capacity building support.</li> <li>– Implementation and monitoring support</li> <li>– Preparation and implementation of the Gram Panchayat Watershed Development Plans under various projects.</li> <li>– Constitution of User Groups and Self Help Groups.</li> <li>– Implementation and monitoring support</li> <li>– Timely release of funds</li> </ul>

3. User Groups	<ul style="list-style-type: none"> <li>- Group Formation ,</li> <li>- Capacity building support.</li> <li>- Technical Support.</li> </ul>
4. Self Help Groups / Vulnerable Groups	<ul style="list-style-type: none"> <li>- Group Formation</li> <li>- Capacity building support for skill development and IGAs.</li> <li>- Training and Technical support for skill development and IGA.</li> </ul>
5. Other community based organizations. <ul style="list-style-type: none"> <li>• Watershed Development Team (WDT)</li> </ul>	<ul style="list-style-type: none"> <li>- Formation of homogeneous groups / teams.</li> <li>- Capacity building</li> <li>- Technical support</li> </ul>

### **EXPECTATION FROM THE CLIENTS**

<b>Client</b>	<b>Expectation from the clients</b>
<ul style="list-style-type: none"> <li>•State Government</li>   <li>•State Level Nodal Agency (SLNA)</li> </ul>	<ul style="list-style-type: none"> <li>• Establishing SLNA at State Level and organizing regular meetings to take up monitoring and review of the progress of the ongoing watershed projects.</li> <li>• Arrangement of financing from Government of India and other external / internal agencies for implementation of watershed projects.</li> <li>• Preparation of State Perspective and Strategic Plan incorporating District Perspective Plans of the district in the State.</li> <li>• Preparing proposals seeking approval of GoI and timely release of funds for implementation for watershed projects in the State.</li> </ul>
<b>Community level</b>	

<ul style="list-style-type: none"> <li>•Gram Panchayat</li> </ul>	<ul style="list-style-type: none"> <li>• Convene Grama Sabhas.</li> <li>• Approve Annual Action Plan for development of watersheds and get sanction from competent authority.</li> <li>• Supervise the work and manage project expenditure as per the action plan.</li> <li>• Open project bank accounts (Implementation and maintenance account and Watershed Development Fund account).</li> <li>• Post Project Maintenance of assets using watershed development fund. (WDF)</li> </ul>
<ul style="list-style-type: none"> <li>• Watershed Committees</li> </ul>	<ul style="list-style-type: none"> <li>• Prepare vision documents, project outlines and action plans for implementation of the projects.</li> <li>• Overall management, supervision of watershed works and ensure good quality of the works.</li> <li>• Record the proceedings of the meetings and maintain proper books of accounts.</li> <li>• Timely submission of status reports, activity wise progress reports, utilization certificates and other financial reports to DWDO / HO.</li> <li>• Manage, Monitor, Analyze and Evaluate the User Groups and Self Help Groups and provide capacity building support to them.</li> <li>• Ensure Transparency and accountability involved in the project implementation.</li> </ul>
<ul style="list-style-type: none"> <li>• User Groups</li> </ul>	<ul style="list-style-type: none"> <li>• Play a major role in preparing the projects at farmer level and bringing them in action plan.</li> <li>• Collection of contribution from the beneficiaries.</li> <li>• Execution of the works and maintenance of all the assets created in the project.</li> </ul>

<ul style="list-style-type: none"> <li>• Self Help Groups</li> </ul>	<ul style="list-style-type: none"> <li>• Help the members to improve their financial conditions by regular savings and loan / debt management.</li> <li>• Support and participate in income generation activities (IGA)</li> </ul>
<ul style="list-style-type: none"> <li>• Watershed Development Team</li> </ul>	<ul style="list-style-type: none"> <li>• Work as a Team for overall welfare and development of watershed area in a coordinate manner.</li> </ul>

## **COMPLAINT / GRIEVANCE REDRESSAL MECHANISM –**

- A website for registering complaints [www.watershed.kar.nic.in](http://www.watershed.kar.nic.in) is available. Stakeholders are welcome to use this facility.
- They can also write through the e-mail ID: [comwdd@vsnl.net](mailto:comwdd@vsnl.net); [jdaigahrd@gmail.com](mailto:jdaigahrd@gmail.com)
- Correspondence through post at the following address-

The Commissioner,  
Watershed Development Department,  
7<sup>th</sup> Floor, KHB Complex, Cauvery Bhavan,  
K.G. Road,  
Bangalore-560009.

- Under RTI act, public information cell have been established at the following offices-
